Related subject: Whole of York proposal

The proposals for new York wards seems satisfactory, there are a few comments I would like to make::

1. The Langley Gate development is best understood as part of Acomb West, as it represents an outward extension of Acomb rather than belonging to Poppleton.
2. The railway line provides a strong and logical physical boundary in areas such as Clifton, Leeman Road, and Dringhouses. Using it as a ward boundary would create clear and easily recognisable divisions.
3. I would support the proposed structure of the new Acomb wards, with Front Street, Carr Lane, and Gale Lane acting as sensible and identifiable internal boundaries that divide that area.
4. Fulford and Fishergate are closely linked and function effectively as a single community, and the proposed ward structure reflects this relationship well.
5. The proposed Tang Hall and Derwenthorpe ward broadly reflects existing community boundaries, though it would be more coherent if the entire Derwenthorpe estate were included within it and not split off into another ward. All of Derwenthorpe naturally sits together.
