Related subject: Dringhouses and Woodthorpe ward

I previously wrote in support of combining Woodthorpe, where I live with Foxwood ward. I am pleased that this is now a proposal. It is a much better fit as a ward as it encompasses 2 communities that use the same shops, pubs, restaurants, places of worship, GP surgeries, community centre, and schools which is not the case with Dringhouses and Woodthorpe. Examples include the shops and restaurants, pharmacies, in Front St Acomb and Acomb Wood which are well used by the communities in both Woodthorpe and Foxwood wards.
