Related subject: Fishergate and Fulford & Heslington

I am in favour of merging Fulford and Fishergate. They are the same community, and I am are really supportive of the proposed ward with three Councillors.

I am also in favour of creating the Heslington and University ward which reflects areas with many students and the non-student local communities that co- exist.

In addition, I believe the new Tanghall ward is a really good reflection of the Tanghall community, but all of the Derwenthorpe estate should be included as a coherent area within the ward and not split in three.
