Related subject: The overall proposal for York

Overall I think that the review proposals are sensible improvements and would make these specific comments:

1. Using the railway line as a boundary for wards adjoining it makes sense e.g. Clifton, Leman Road and Dringhouses
2. The proposed Acomb boundaries using main thoroughfares (Front Street, Carr Lane and Gale Lane) makes sense
3. It makes sense to link Woodthorpe and Foxwood as one community
4. It is good to recognise Fulford and Fishergate as one community
5. Dunnington and Wheldrake are two separate communities so it does not make sense to link them into one
6. The proposed boundaries for Tang Hall and Derwenthorpe reflect the new communities well but shouldn't the whole of Derwenthorpe be in that one ward ?
