Related subject: Heworth/Tang Hall/ Hull Road

As a resident who lives in the Heworth Ward the Commission's proposals seem to make a great deal of sense for our area given the community changes since the last review. The TangHall/Derwenthorpe proposal makes a lot of sense in bringing the community together but to divide the new Derwenthorpe development across two wards seems to contradict this good intention.

Linking Hull Road more closely to the University seems a very sensible thing to do as many of the recent developments in this area are related to student accommodation.

As a former senior school leader in the Acomb/Foxwood/Woodthorpe/Rural West area the new proposals do seem to better reflect the communities in that part of the city and are welcome in my view.

Finally as a former resident of the Fishergate Ward the suggestion to combine Fishergate with Fulford is long overdue as this part of the city feels very much one community.
