Related subject: Monk Stray

Why can't you just leave things as they are?
What is the point of splitting Monk Stray in two? I would like an answer to this please!

Everything is settled so as far as I can see you are wanting these changes for the sake of changing things ! You are giving jobsworth posts to people who don't live here! Surely money can be spent on better things. If you have jobs going for people to do sod all, can I apply?

I am far from being a snob but what have we in common with Bell Farm area?

As for the bus service, we have the Coastliner which is reliable. The bus that goes round Ashley Park keeps getting cut or longer between the service. Is this what you want to cut again?
What the boundary changes has to do with this is anyones guess

As far as I can see you are disrupting communities for no good reason other than to create useless jobs!
