Comment text:

My overall view of the proposals is positive and I agree in principal with the nature + scope + feel it improves representation for local communities across the whole city.

Having analysed each sector in more detail, it makes sense to use the railway line as it provides a straightforward boundary line in Clifton, Leeman Road and Dringhouses and I feel that it would produce clear, identifiable ward boundaries.

I strongly welcome the new Acomb wards, with Front Street, Carr Lane and Gale Lane providing clear and obvious boundaries within Acomb. Fulford and Fishergate are interchangeable in my view and the new ward reflects that really well, just a common sense proposal.

Finally, having worked in the area for many years, the new Tang Hall and Derwenthorpe ward accurately reflects the boundaries of Tang Hall but I would strongly recommend that the whole of the Derwenthorpe estate should be included in it.

In conclusion, I am impressed with the research, refreshing openness + delivery of this document and feel that with the minor adjustments mentioned above, it would be the fairest and most effective outcome for the vast majority of the good people of York.
