Related subject: Boundary changes

I refer to the proposed boundary changes and would respectfully ask that the property known as Knoll Cottage remains within the boundary of Rural West York. The property is adjacent to the eastern boundary with Manor school which remains in Rural West York.

Knoll Cottage is a heritage property dating back to the 1890s, the original date of build is unknown.

When originally built Knoll Cottage was a market garden serving and supplying local produce to the local communities of Nether and Upper Poppleton.

This occupied a large swath of cultivated land stretching from Millfield Lane to the north and Boroughbridge Road A59 to the south.

I would like to think that with the history of the Poppleton's, it would embrace Knoll Cottage with its boundary to protect its rural heritage.

Knoll cottage has been within the rural community for over 130 years, it is a country property that should continue to belong to the rural community and continue with the relationship with the Poppleton's that it has enjoyed since first being built in the 1890s.

Myself and my wife have lived in Knoll Cottage for 53 years, having brought up two children who attended Poppleton primary school. As a family we have enjoyed the support of the local Poppleton community and would ask that this continues for the next 130 years and beyond.

To include Knoll Cottage together with Manor school within the same boundary would make little impact to the proposed plan but would have significant and a long lasting benefit to Knoll Cottage and the history of the Poppleton's.
