Related subject: The proposed changes to the local government boundaries concerning the Rufforth with Knapton parish.

I would like to register my opposition to any changes to the boundaries of the Rufforth and Knapton parish.
I have been a resident for 25 years and have never had a problem with the boundary.
I feel that a change would have a negative effect on my house value and car insurance premium.
It would also change the school catchment area for me.
I identify strongly with being in a rural ward rather than a city ward, especially as my location is on the edge of the urbanisation.
I can see no clear need for the change.
The current arrangement has worked very well for all these past years, so why change it ?
I feel very happy with the current Parish council representation.
I do not see any positive reason for the proposed changes.
