Related subject: Heworth Without

The proposed changes to the boundary will move our property out of the Heworth Without ward and into the Heworth ward, which does not fit well with our current access to local facilities and amenities. If the reason for the boundary change is due to the head count in our ward not meeting the criteria for two council members, then a better solution would be to adjust the boundary into the Heworth Ward and have both wards with two council members. For ease of understanding by the residents the boundaries should be aligned to geographical features, e.g. using major roads like Malton Road and Stockton Lane as boundaries.
