Related subject: Heworth Without

As a property owner in Greenfield Park Drive I strongly object to the proposed boundary changes - I assume the allowing of intensive housing development in the area is the motive. If something isn't broken WHY fix it????? That is the current idiotic mind set that possesses all current council and government authorities and has resulted in so much unnecessary legislation and expense which council tax payers have to fund and unhappiness of those who actually live in the affected areas.

Leave the Heworth Without Ward as it is please !!!!!!! All local community facilities and Christ Church in Stockton Lane have shared the same community since 1960s. Respect the views of those who actually live in the area and allow us to retain the ward boundaries with which we associate our long-standing identities.
