Comment text:

Related subject: Hrslington

I am totally opposed to any scheme which further drags the village of Heslington into the ambit of the University. It already dominates and the proposals would result in complete obliteration. UOY is a totally separate entity on any dimension available and should be treated as such. Its population is largely transitory with limited interest in the long term health and welfare of the village of Heslington. This proposal would mean death to the village. A disaster.
