Related subject: Upper Poppleton/Acomb

As a resident of Langley gate, I would like to oppose the changes that have been proposed for our ward boundary. We are currently part of upper Poppleton, which is what brought me to Langley gate in particular as it was part of that community, along with it being catchment for Poppleton Ousebank Primary school. We are under Rural West York ward, and the councillors for our ward have been very helpful, I fear the change that would come with being part of the Acomb west ward would only bring negativity. The crime rate that is associated with Acomb west ward in comparison to our current Rural West ward is also a huge concern and it would deeply impact the residents here at Langley Gate. I feel like I can speak for the majority at Langley gate in saying that love our community and belonging to Upper Poppleton, the changes proposed seem unnecessary and would not gain anything positive by doing so.

Many thanks
