Comment text:

Related subject: Heslington

I am concerned that the interests of the village of Heslington and its residents in the revised plans will be subordinated to those of the University. We are a village community in its own right and not a sub section of the University. Maintaining the distinctive nature of the village and its ability to exist independently alongside the university (and not as part of it) is key. Students living in the ward are usually temporary residents and do not have the longer term attachment to the village (in contrast to its longer stay local residents).
