Related subject: Heworth Without ward changes

I have been resident in Heworth Without ward for 40 years. The ward represents the area I have always been actively a part of, attending Christ Church and the coffee meeting room. Like my children did, my grandchildren attend Hempland School, plus the toddler groups, preschool and dance classes at Christ Church and Heworth Without community centre and adjoining playground, and so, with child minding, my involvement here continues, as does my concern for the roads and footpaths around them and any issues with litter and anti-social behaviour. I interact and have affinity with residents from Apple Tree village as well as from the length of Stockton Lane and adjoining streets, from regularly using the no 11/11A bus and the Coastliner, as well as daily walks round this area. Heworth Without ward covers and deals with the maintenance of the area I care about and identify with. The ward's priorities of improving and support community provision projects to reduce social isolation are close to my heart. I strongly oppose the idea of carving up the ward so I and some of my neighbours are tacked onto a ward covering areas outside our immediate interest.
