Related subject: Heworth Without ward changes

I have lived in Heworth without since 1986 and all this time I, my children and now grandchildren, have used the facilities. My children have attended and my grandchildren, are currently attending Hempland School. I have made numerous journeys to and from there over the years. I played at Heworth Cricket club for many years as did my son. Over the years, both the hall at Christchurch and Heworth Community Centre have been venues used by my children and grandchildren for educational and recreational courses and events. These are some of the reasons why I feel the section of Heworth Without Ward which I live in should remain within the same ward's boundary. It is a thriving mini-community as it is.
