Related subject: West York Area

I support the proposals by the boundary commission for the west of York for the following reasons:

- The proposals reflect the span of the Acomb area, and will provide clarity on who councillors are in each area. I like that communities such as Chapelfields are kept together under the Acomb area
- Areas of deprivation are also spread between the 3 Acomb Wards, which I hope will ensure that there are resources to support areas where needed.
- Front Street and Carr Lane as the boundaries help to create clarity as Acomb Primary and the Police Station sitting in Holgate Ward currently creates confusion for many living in the area.
- To the north, I also agree with the inclusion of areas of Upper Poppleton in the Acomb West ward as these newbuild houses are part of Acomb and separated from the rest of the village as they are closer to Beckfield Lane. It would work better for these areas to be represented by Acomb councillors.

Thank you in advance for taking this feedback into account.
