Comment text:

Related subject: Upper Poppleton

There are longstanding existing ties to Poppleton, hence purchasing a house in Poppleton to live. rather than another area of York. Social relationships and broader networks have been formed purposefully on that basis.
The stated aim of the review is to balance electoral numbers across wards (about 3,200 electors per councillor). Moving our area however, would leave Rural West York around 10% below that average. There is no compelling reason for this change.
