Comment text:

Related subject: Heworth

I'm generally supportive of the boundary proposals for the Heworth Ward area. Tang Hall Beck as boundary between Heworth and Tang Hall is very sensible in my view. It also makes sense to include the wedge area to the North of Stockton Lane, which is similar to the rest of Heworth. However, I don't understand the proposals relating to Derwenthorpe: it was build as a community with a specific and distinct character and should be part of one area instead of being split between Heworth Without, Osbaldwick and Derwenthorpe and Tang Hall. The whole of this area should be part of the latter, in my view.
