Related subject: Westfield ward

Westfield Ward is more appropriate to us as we won't be in the same catchment to the school that is closest to us and the people over the road are in a different catchment to us, we also have a great liberal councillor who does lots in our area, he is always there whenever you need anything. We never see any other councillor unless it's voting time. I think that the ward is too spread out on the new areas and we wouldn't get the same commitment from the councillors as we do now.
