Related subject: The proposed Derwent Ward

Positive re name of ward as aligns with historical description of area and long established organisations.

In response to your question re Community Identity of Area:

-Positive re one large ward with two councillors, particularly important for Kexby and Scoreby parishioners as parish is either side of the A1079. For parishioners south of the A1079 there is a greater need to align to Elvington as this is the village we use and to ensure fair representation re local developments.

-The B1228 within York boundary would all be within one ward which would eliminate errors currently made by Council re ward and parish boundaries and in the future there would be one voice re improving transport links to meet needs of York residents from Elvington, Wheldrake and Kexby and Scoreby parishes as well as users from East Yorkshire.

-Kexby and Scoreby is the correct name of the parish not Kexby.

-Dunnington and Kexby and Scoreby are used to having two councillors and agree that it is an improvement that two councillors will represent village and rural needs rather than having to represent a suburb and villages.
