Over all I support the changes and in particular the following changes and the justifications presented for them:

Placing Woodthorpe and Foxwood together recognises that these two communities have the same access to the city as well as shared community facilities.

In Clifton, Leeman Road and Dringhouses the railway line is a clear identifiable boundary line.

The new Acomb wards have clear identifiable boundaries along Front Street, Carr Lane and Gale Lane.

As a previous resident of Fulford and Fishergate i agree that they are the same place, and the new ward reflects that..

The new Tanghall and Derwenthorpe ward reflects the boundaries of Tanghall, however, for completeness, this ward should include all of the Derwenthorpe estate.

There is one decsion I disagree with:

Reflecting the veiw of freinds, who live in Dunnington and the lack of social links between these two villages, Dunnington and Wheldrake should be two separate wards, not one big one.
