Related subject: Langley Gate estate, currently in the Rural West York ward (proposed to move to Acomb West ward).

I am a resident of Langley Gate, having moved here last year. I am writing to formally object to moving our development into the Acomb West ward. Since moving in, my family, children, and I have thoroughly enjoyed being an active part of the Poppleton community. We rely heavily on walking through the safe village paths to use Poppleton's local services daily, including the local GP, the salon, and other village shops. Conversely, we have absolutely no connection to Acomb. The A59 is a hostile, high-volume traffic barrier that physically cuts us off from Acomb. It is far too dangerous for our daughter to cross the A59 to join any events or activities in Acomb, making it entirely inaccessible to us on foot. Moving us to Acomb West completely ignores this safety and geographic reality, and would sever our established daily ties to Poppleton. I urge the Commission to maintain the ward boundary at the southern edge of Langley Gate, keeping our estate within the Poppleton/Rural West ward where we socially and physically belong.
