Comment text:

Whitley bay, Cullercoats and Tynemouth should be grouped together. The proposed changes from the existing boundaries to separating whitley bay and grouping it with Cramlington makes no sense. Whitley bay along with Cullercoats and Tynemouth share a common history and current business demographic. To put whitley bay with Cramlington makes no sense and only serves the current governments voting expectations. The existing borders should remain but if they are to be changed, Tynemouth, Cullercoats and whitley bay should be grouped together.
