E-mail:

Postcode:

Organisation Name:

Comment text:

Burstead and Fryerns have the same number of Councillors. But have a significant difference in the number of the forecasted electorate. Burstead 8707, Fryerns, 11299. There is a 2496 difference. Only listing these two as an example, it shows that there is a disproportionate amount of say given to certain districts. I'd like to see the process in which this districts were devised.
