Comment text:

This isn't at all transparent, boundaries are up for review with little information other than having to click on links. How does this affect us in day to day life? We live in Prestbury ward in cheltenham, we pay cheltenham council tax plus extra for the privilege but have to vote for Tewkesbury in general elections, it makes no sense, we don't even visit or shop in Tewkesbury and too far to walk. Please consider how disjointed this whole system is to the general public when making decisions. Confused.com
