Comment text:

First, when re-drawing the boundaries, please be aware of the natural boundaries which exist across Wokingham, such as brooks and rivers; as well as any historic places associated with a particular ward. There are many areas of new development. eg Emmbrook. Looking at the current boundaries, it seems as if those wards closest to Reading are losing electorate; whereas the developments in Shinfield, Arborfield, Finchampstead will see their populations increase. Please ensure that local governance arrangements continue to reflect the identity and interest of local communities. Electoral fairness is paramount.
