### Comment text:

Whilst I understand this review is limited to just Wokingham Borough, most people in Wokingham Without have no idea why we are not looking at the boundary with Bracknell Forest which splits our community (Crowthorne) in the most ridiculous way. If the 2 xBF wards of Crowthorne and the WW ward of Wokingham BC were combined Crowthorne would have much more sensible governance. There are at least 11 roads in Crowthorne where some houses as in "Wokinghm" borough and other houses are in "Bracknell" Borough and it makes no sense to anyone (See map snip below). Sometimes even individual properties are split by the boundary. I fea that when the WEst Berks / East Berks boundaries get drawn, the split point will be Crowthorne (again) leading to fragmented decision making and delivery of services not to mention complete bafflement by the public of who dreams up such stupid boundaries.
