### Comment text:

The new boundaries and number of District Councillors should reflect the recent building spree in Bishop's Stortford; there will be over 4000 new dwellings and over 10,000 new residents over a ten year period. BS has borne the brunt of new housing in East Herts but is under represented on EHC. New wards should be created so that the new residents are appropriately represented in EHC, and new councillor positions also created. The same will be true for the Gilston development in due course. Having said that, I consider 50 councillors already too many and I would ask for a thorough review to be undertaken and a reduction in councillors elsewhere. I would imagine that the villages are over-represented but I have no evidence for this.
