Comment text:

As the County Councillor for Perton, Pattingham and Patshull I represent not just the residents but fundamentally the villages themselves, I therefore know I speak for the entirety of Pattingham when I must insist that Pattingham and Patshull should retain their one District Councillor. This is necessary to protect and promote the unique character of the village, which differs in its needs, services, rurality and agricultural heartlands to Perton's urban and far larger community. The character of both villages 'Pattingham' and 'Perton' can only be maintained through separation. That is to say, both Perton and Pattingham must have their own District representatives to ensure that the voices of both uniquely different villages are adequately represented.
