### Comment text:

I am a Cllr for Greenlands ward which will be broken up. I think the divisions between the ward having the area split into thirds is sensible as the 3 areas have a separate and distinct identity. The only tiny tweaks I would make is that the Wirehill Headless Cross boundary includes Alexandra hospital as the new houses due to be built there will identify as Wirehill. This is about 92 homes. Additionally the closes on Throckmorton road near to be included as Greenlands. Milcote, Lapwirth, Lapwirth and Highland way all see themselves as being in Greenlands so the line needs to run down the green behind the houses. So that all residents on Throckmorton and the streets off it are in the Greenlands ward this is about 270 properties. This is where their local identity is. This is the only minor tweak I would make as the areas seem very well thought out. Only based on where residents say they live if asked. To make these numbers balance better I would include Forge Mill Rs, meadowhill Rd, meadowhill Crescent millrace rd and north of that join in with the North District.
