[REDACTED] [REDACTED]

My name is [REDACTED], I was born in Bulgaria but I have lived in Wisbech with my family for 6 years and have settled status. I offer help and support to the Bulgarian community in Wisbech (of which there is a large number) and I am also a Wisbech Town Councillor

I support the boundary proposals Put forward for Wisbech Town Council and Fenland District Council because they best meet electoral equality

I particularly support the proposed Riverside ward. This is because it links the old market area with the part of the town centre that joins the other bank of the river - most people see all this area as the centre now as they use the banks and cafe in the old market area. I wldd also like it because a lot of my clients live in the existing Peckover and Clarkson wards (moving their for the primary schools and closeness to the town centre) - I feel a joint ward putting the two areas together as proposed will put the Bulgarian community together
