As I understand it, there will be a new West Ward which effectively amalgamates the former West Ward with the Dyson Perrins Ward (I have to say I found it really difficult to find out the proposals so if I have got this wrong, please correct my comments - and if, I, as a Director of Services in similar local authorities to Malvern before retirement, found it difficult, how would other people learn about these proposals?). If this is the case, the wo wards which previously had 4 councillors will now only have 2, which seems too few to me, given the straggly road layout and rurality of the former West ward, which is very unlike the denser, more regular urban settlement of Dyson Perrins. I would ask for these proposals to be abandoned and the West and Dyson perils Wards not to be amalgamated.
