Comment text:

Major issues are too much heavy traffic,inappropriateness of vehicles for width of road,B4204 ie earth moving companies, speed limit needs reviewing to 20mph and enforced due to schools and elderly residents. Volume of traffic as a result of over development in both Martley and now Clifton. Where is the reduction of council tax as the council has reduced the quality of the rural environment!? Let's say 20% less for the 20%+ increase in volume of all traffic types.No I'm not a NIMBY I just apply common sense with regard to decisions unlike the council who works on my behalf!
