Comment text:

It would make more sense if Garston Village and under the bridge (which should be treated as one entity) were their own constituency in the case of smaller wards. It would also make sense if Garston Village and under the bridge, in the case of larger wards, were attached to the rest of Garston. It makes no sense that the centre of Garston is divided from the rest of Garston. Speke is in many ways a separate community to Garston due to the geography of the area if nothing else
