Comment text:

I have attempted to find information on how the wards will be redrafted from the current 30 to the proposed 85. I have found this very difficult as there is not enough information at street level. I would like to know at this stage how the ward I am currently in, will change - will my home be in a different ward? And if so, how this will change my expectations. I am currently in Picton Ward and know there is a possibility of my home falling within Arundel, Wavertree, Smithdown Dales or Wavertree Village wards. My experience as a resident of Picton has not been a positive one. I support the proposed redrafting of the wards and also that the majority of them will have just one councillor. I am hopeful that this will lead to more accountability regarding the roles of the councillors and suggest that full training is given to councillors so they are fully aware of how they should represent residents; respond to residents concerns and how they should view their caseloads and interact with residents who are worn down with area related issues that affect their mental health and well being. Please provide greater information on the maps so residents can see where boundaries may /have changed. This needs to be seen at street level in order for residents to make more informed comments.
