Comment text:

Looking at this purely taking in the numbers it seems sensible to have roughly the same number of people represented by one councillor. There are current wards with almost double the number of residents: I.e. lodge park 3775 v greenlands with 6783! This must mean that the councillor for Greenlands has a much larger workload. What I will say is that councillors need to be more visible. There are a handful who I see actively engaging...Matt Dormer, Emma Marshall, Mike Rouse, Ann Isherwood and Craig Warhurst (for example) are very visible - well done to those guys.
