Comment text:

Having lived in the parish of WSM for 66years the local government system has always worked well with a manageable sized parish,Why include Elm &Friday Bridge within the same parish,making the area to large,with the A47& River Nene running through the centre of the area.Surely the river Nene and A47 being natural boundaries,this will. Lead to poor Councillor coverage of the area and is not conclusive for good local government.
