Comment text:

why are we changing it seems pointless idf this is driven from westminster to omake sure that Tories keep control then this is not in my interest. i dont understand the need to change. i think that the rebalance is a bit of a red herring as MArch is still growing and the boundaries will need to be redrawn again after the developements along the bypass are finished etc. do not redraw the boundaries until the impact of that development and more are felt. too soon and its a tory powerr grab as no reprrt is truly indepenadant
