### Comment text:

We have worked hard to establish our own identity and community spirit since we became Apley Ward in 2003 and had the approval of the Post Office to change our address to Apley from Leegomery. WHY are the LGBCE wanting to change things now and spend God knows how much money to put us back to where we don't want to go (Jobs for the boys?) and cause our Council to spend unnecessary money (which could be better spent on projects to benefit the community) to change all their paperwork etc. LEAVE THINGS AS THEY ARE!
