Comment text:

We have been made aware that a proposal by FDC to increase the number of Councillors will result in the village of Murrow being divided into two district wards . We are proud to have active Community groups in Murrow that engage with ward Councillors for advice and funding on a regular basis . Dividing the village would make the work of the Community Speed Watch group and the Street Pride group far more complicated . The risk being that these very worthwhile groups become less efficient or cease to function altogether . There appears to be no valid reason to consider these proposals but I strongly suspect that a political agenda is involved . It will be considered as a detriment to the village of Murrow should this proposal go ahead and we would urge FDC to abandon such plans .
