Enough is enough. As a small village, Murrow is already split into two wards with one side of Back Road under Parson Drove and the rest of the village under Wisbech St Mary. This has already caused confusion in the village as small as ours. I have lived in Murrow for 28 years and have found it hard enough to get things done for the village as it is without splitting the causing even more confusion. We have two "Local Councillors" who live villages within our wards. Why on earth you think (for the sake of three "so called" local councillors, who may live 15 to 20 miles away, add the cost the FDC will be paying them), this is going to help our small community. That, to me, is a definite NO. Why fix something that's not broken. Leave well alone. What Murrow as a village is help with the speeding traffic we've had to deal with for years, along with bad road and pavement surfaces. Spend the money where it's needed, not an extra 3 councillors who are certainly not required.
