Comment text:

Thank you for listening to local feedback from across the 3Bs asking for the three settlements to be kept together in the same ward. Now please listen as positively to requests for all five settlements to be included in the name of the new ward. I was disappointed to read, in the MVDC response a suggestion for wards in the south of Mole Valley to be allocated generic names in contrast to those in the north. It is currently very easy for a Buckland resident to spot who is their Councillor on the MVDC website - please continue to make it easy. Please don't allocate a name that focuses on one or two settlements - please continue to use ward names that are inclusive and treat all of us equally.
