### Comment text:

Current wards do not reflect the community interests and identity of people living in the inner avenue, bannister park and Bedford place area. This is currently an intersection of ward boundaries (Bevois, Fremantle, Bargate) and roads (Inner Avenue, Archers Road) which means the needs and interests of this community feel sidelined and the community is split in the middle. Would like to see a new ward established in this area that reflects the diverse population of this intersection that includes families, students, HMOs and small independent businesses within the Avenue, Bannister Park, Bedford Place and Polygon area.
