### Comment text:

As Bargate is the biggest ward it needs to be split and to incorporate the eastern part of the current Freemantle ward (east of Hill Lane), making a true central ward plus a second ward just north of central Bargate. Freemantle ward currently has very different communities on either side of Hill Lane. The split of wards along the river Itchen need to remain as the communities are separate on either side of the river. Some adjustments to other wards may be necessary due to their relative populations (e.g. the remains of Freemantle ward expand into Millbrook) but that should be on the basis of data that I do not have. Big roads and the river tend to split communities.
