Comment text:

51 councillors? If there must be an extra ward 16-17 then reduce the number of councillors to 34. We have a cabinet style with most most decisions reached by 9 or 10 councillors. The extra 38 councillors only add noise, heat but little light on the proceedings in the council chamber. To think an extra 3 councillors would add anything to the maelstrom of local politics is just pie in the sky and a waste of council tax which could be better used on pest control about the City.
