Comment text:

Local news indicates that the Labour Party wishes to increase the number of wards and councillors as well as drastic alterations to existing wards. In times of economic difficulties I see it incomprehensible that the financial burden of extra councillors should be considered. I live in Oakwood a clearly defined neighbourhood of Derby and there is an Oakwood ward which in my time living here (16 years) have been served well by our 3 councillors. There is a strong defined community in Oakwood and I think the estate deserves to continue to be a ward with political boundaries reflecting the geographical nature of Oakwood.
