Subject: Boundary proposals for Stretford ward, Trafford

Categories: Submissions, [REDACTED]

I have lived on Derbyshire Lane for over 30 years, and intend to stay here. Our ward seems to have very clear boundaries set by the Davyhulme Road East, the A56, and the M60. The community within these all experience the same issues to do with traffic, parking and transport services. We use and care for the same facilities, both public and private, and community activities have enhanced our shared green spaces and roadside planting. I am also aware of development plans within our shopping centre which would increase the number of residents within this area by hundred(s). Those residents need to become part of our cohesive community very quickly. I would support the retention of the boundaries of A56, M60 and Davyhulme Road East in the current review to build on what is being achieved.

Thank you
