**Subject:** Proposed Trafford boundary changes for M41 area

**Categories:** Submissions, [REDACTED]

As a resident of [REDACTED] Davyhulme I support the proposals for the creation of a new Davyhulme Ward and indeed your proposals for the wider M41 area. I will briefly mention Flixton and Urmston before coming to my own ward:

Flixton:

I used to live in Flixton. I think it is sensible to use Irlam Road as a clear ward boundary. Also, moving the boundary to Princess Road gives a very clear boundary,

Urmston:

I think this is an improvement on the current position. The area around Humphrey Park feels more like Stretford than Urmston and the same is true of the areas off Canterbury Road and between Railway Road and Winchester Road. Focusing on the town centre is a much better approach and I support this.

Davyhulme:

I am very pleased by the proposals as a resident of the Ward. The boundaries particularly the use of Hayeswater Road are much clearer and the addition of electors from Flixton closest to Woodsend Circle recognises community ties in this area. I am not alone in shopping at Woodsend Circle, using Woodsend Library and Medical Centre and so I think it is right that there should be a single ward that focuses on Woodsend.

I therefore provide my absolute support for the plans for the Urmston, Flixton, Davyhulme, Lostock areas.

Regards,
