Subject: Timperley ward change

Categories: Submissions, [REDACTED]

Hi there, I am email in regards to the changes being proposed upon the timperley wards.
I think the changes being made that would affect broomwood community are unfair.
This community has been built and families have been raised here, we have a doctors, a dentist and our own pharmacy and shops. We have a community center where everyone from in this community gathers.
People are proud to be from The Broomwood, to be split literally in half would affect this community.
This is not a wealthy community like hale barns or Timperley central.
This community is full of social housing of which most of the tenant have children which attend The Broomwood School which is at the very heart of the community.
We should be seen as our own ward with our own name.
I hope that the response you have in regards to this matter make you relook the proposals.

Thanks in advance, [REDACTED]
